

Dear Parent,

This school year, your son or daughter will be practising and playing on the online toolbox Kabas. The login details can be found on the diary sticker.

What is Kabas?

Kabas is a **digital toolbox** for children attending primary school. The pupils carry out the tasks set by their teacher on Kabas. By doing these tasks and exercises, the children earn 'kwetons' (money). These kwetons can later be used to enjoy all kinds of exciting adventures in a wonderful play environment called Kweetet.

Why Kabas?

Kabas is a tool that allows your child to practise and repeat material learned in class in a motivating and fun way. It is scientifically proven that the play element of Kweetet increases the **motivation** of the children. Not only that, with only a few mouse clicks, the teacher can easily tailor the exercises to each pupil's specific level. **This way, each child can learn at his or her own pace.** And all of this takes place in a **safe and private online environment.**

How does it work?

- Practise

Practicing takes place on the tasks page: go to www.kabas.be, log in and complete your tasks! You can also view other learning material and do other exercises under the 'Independent learning' button. Keep in mind that this requires that your teacher activate the material first.

- Play

To play the game, you only need to download the installation file once. Go to www.kweetet.be/leerling. This is where you will find the download. Follow the instructions on your screen. The download is available for both Windows and Mac.

Staying up to date as a parent

Want to keep track of what your child is doing on Kabas? No problem! Go to www.kabas.be and click on 'I am a student'. Log in with your child's details, which can be found on the diary sticker. You can now see which tasks your child has been given and the scores he or she has earned. On www.kweetet.be/leerling, you can log in and see what happened during the game.

Questions?

Go to www.kabas.be/faq and have a look at the frequently asked questions section on our website. You may very well find the answer to your question there. Otherwise, please do not hesitate to contact us.

The helpdesk staff would be delighted to help you. Simply send an email to kabas@diekeure.be.

Kind regards,
The Kabas Team
